Topper 8 Gauze

Topper 8 is composed of nonwoven viscose rayon and polyester. These cost effective low-linting swabs with high absorbency are ideal for use in all general wiping and cleansing procedures associated with wound management.

- Ribbed structure provides a textured surface to facilitate debris removal
- The non-woven fabric permits high absorbency without linting, unlike gauze swabs

Melolin

Low Adherent Dressing (Highly Absorbent)

Melolin consists of a highly absorbent cotton and acrylic fibre pad which is heat bonded on one side to a very thin perforated polyester film. The film side of the dressing is placed next to the wound.

- Rapid drainage of exudate, reducing trauma to healing tissue
- Comfortable and minimises pain on removal
- Easy to cut to shape
- Significant improvement in terms of strike through, therefore requiring fewer dressing changes

Cutilin

Cutilin is a low-adherent dressing for exuding wounds. Can be cut to suit, without linting.

- Step 1: Clean the wound with saline solution. Do not dry the wound bed.
- Step 2: Cutilin can be secured with an adhesive tape or bandage.
- Step 3: Cutilin can be left in place until the capacity of the pad is exhausted, which can be seen when exudate reaches the edges of the dressing.

Indications: Burns, scalds, lacerations, abrasions and leg ulcers.

Bactigras

Antiseptic, Paraffin Gauze Dressing

An antiseptic, soft paraffin dressing which soothes and protects the wound whilst helping to reduce wound infection and inflammation. It contains chlorhexidine which is an active agent against a wide range of bacteria. Low adherence allows the wound to drain freely into an absorbent secondary dressing.

Indications: Suitable for covering wounds such as minor burns, lacerations, abrasions, graft sites and leg ulcers.

Cuticerin

Low-Adherent, Impregnated Gauze Dressing

An impregnated, non-aqueous, non-linting dressing ideal as a wound contact layer for burns, abrasions and other wounds with superficial skin loss. It reduces the risk of granulation tissue growing through the dressing, decreasing trauma on removal.

Indications: For treatment of extensive, exuding wounds – burns, abrasions, radiation injuries, skin graft and donor sites.

- Sterile, bacteria proof and waterproof
- Hypo-allergenic adhesive
- Secure adhesion
- Low adherent pad
- Protects the skin
- Allows the skin to breathe

Opsite Post-Op

Post-operative dressing combines the advantages of OpSite film with an absorbent dressing pad to provide a superior dressing for many types of wound.

- Waterproof, breathable and conformable
- Bacterial barrier helps to reduce the risk of secondary infection
- Absorbent, non-adherent pad minimises the number of dressing changes

Indications: Post-operative wounds, skin tears, minor cuts, abrasions and lacerations

Opsite Post-Op Visible

Waterproof, bacteria-proof dressing with see-through absorbent pad

OpSite Post-Op Visible is a transparent film with a unique see-through absorbent pad. The highly breathable film is waterproof and bacteria-resistant, and the unique lattice structure foam pad enables regular wound assessment without the need to lift or remove the dressing.

- Absorbent lattice structured foam pad
- Highly breathable waterproof outer film
- Perforated low-adherent wound contact layer
- Low allergy adhesive
- Easy application flexible carrier

Indications: ideal for moderately exuding wounds including surgical wounds, lacerations and abrasions. The low allergy adhesive reduces the risk of irritation and keeps the dressing in place, even over awkward contours.

Mepitel® Film

Mepitel film provides a flexible, transparent covering to protect the skin or wound from microbial contamination and fluid strike through. It maintains a moist environment even though the vapour permeability allows excess moisture pass away from the skin. It provides instant tack adhesion that minimizes the requirement of extra pressure to fixate well.

Benefits:

- Minimises pain and trauma at dressing changes
- Limits the risk for damage of newly formed tissue
- Transparent for easy inspection
- Conforms well to body contours, promoting patient comfort during wear
- Bacteria and viral barrier where microbes larger than 25nm
- Low potential for skin irritation and allergy
- Leaves no residues
- Fluid impermeable
- Shower proof
